FOREWORD

Who's Who in New England was first published in 1909, receiving a most gratifying reception. It was recognized at the outset as an invaluable book, alike in the home, the library, and in the business office. Time has confirmed this favorable opinion concerning the general merits of the work, its comprehensiveness and its accuracy. As a book of ready reference, it has from the first been in constant requisition. The up-to-date merchant, the professional man, the alert inquirer, whatever his vocation, keeps this handy volume upon his desk, within easy reach.

A new edition, revised, enlarged, and brought down to date, has been called for, and the present volume is presented as the best possible response to that demand. This edition contains many names not listed in the earlier issue—names unavoidably overlooked in a first edition—and also a large number that have come into prominence since the first edition was published. The work of revision has been painstaking and thorough. Not only have many names been added, but nearly all of the original sketches have been rewritten in order that the best possible arrangement of the data for easy reference purposes might be secured.

A casual examination of these pages will disclose not only the presence of scores of new names, but also the absence of names which appeared in the earlier issue. These omissions are accounted for by reason of death, removals to other parts of the country, impossibility of finding present addresses, and a few because they are no longer regarded as of sufficient importance.

The names of those whose life-sketches appeared in the first edition, but who have died or have been dropped for various other reasons, have been inserted in this volume in their original alphabetical place, with a reference to the volume of 1909, in which the biographical sketch appeared, and, if deceased, the fact has been noted, with the date of death, when known.

This feature will be of particular value to those who may wish to secure reliable biographical information about many who were prominent in business, social, or intellectual life in the opening years of the twentieth century, but who have passed to the "great beyond," leaving no other printed record of their life-work.

In the remaking of Who's Who in New England—for this is prac-

tically a new book from beginning to end—every proper source of available names has been drawn upon and every reasonable effort has been made to procure the requisite data from all who were deemed eligible for inclusion. Nevertheless, names which should have been included will be missed; but in practically all such cases the omission is not in the least due to inadvertence or the lack of effort on the part of those having the preparation of the book in hand. Not only were written requests sent by mail, but they were supplemented in numerous instances by personal solicitation. The great majority of those applied to responded freely and in a courteous manner. To these, thanks are hereby extended. A few, however, furnished information with evident reluctance, while others showed complete indifference, letting the request for data go wholly unnoticed.

Some names which frequently appear in the newspapers are conspicuous by their absence, for the reason that Who's Who in New England has endeavored to include only persons of reputable vocation and high standing, caring nothing for mere notoriety, but everything for commendable notability.

Notwithstanding the foregoing reasons, which prevented the inclusion of many names, the publication may make just claim to greater completeness, a greater degree of accuracy, and a more dependable and authoritative record in regard to the leaders in the business, professional, industrial, official, and intellectual life of the New England States than has ever before been attained.

To make such a publication dependable, it is necessary that it should be unpurchasable. Who's Who in New England has been compiled as a permanent reference book, and all of the sketches have been inserted with that fact in view. Not one has been paid for, or inserted for any financial consideration.

To secure accuracy, the greatest care has been taken. In every case where possible, the facts were procured at first hands, and the sketches were submitted for verification and correction, thus giving to the book a quality practically autobiographical. In this painstaking way its authenticity has been safeguarded and its value as a reference book greatly enhanced.

The volume has been confined to living subjects, because the purpose from the first has been to furnish a dictionary of contemporaries and to mirror current progress and history as reflected only in life-statistics.

During the daily work and turmoil of life, one finds but little opportunity to become acquainted with those outside of his own inti-

mate circle, whose personalities are of most interest. The reader can doubtless think of many leading New Englanders of whom he would like to know: Where did they come from; where and how were they educated; what is their home life, their religious, social, and political environment; and what have been the chief steps in their careers? If the reader will turn to such names, he will find just the information desired.

Many and varied are the interests controlled or represented by those whose life-histories are here outlined. In fact, in all lines of useful achievement, the book furnishes as complete a compendium and epitome of personal data in regard to those most prominently identified with the best movements and interests of their respective localities as it has been possible to procure by patient care, experienced methods, and large expenditure.

To the press this volume presents features of easily recognized usefulness. Here the newspaper man will find facts which are of great value, and by the use of the book the exasperating errors resulting from the hasty picking up of details from unreliable sources may be in large measure avoided. The truth is here plainly stated, every item being presented in concise, condensed form, so that it may be at once grasped and understood.

In number and representative selection of subjects, accuracy of detail and authoritative usefulness as a work of reference, it is confidently claimed that Who's Who in New England is the most complete compilation of New England biography ever printed.

While it is not claimed that the book represents infallibility or inerrancy, it is confidently put forth as the best that has so far been produced among books of local contemporary biography.

The thousands of persons who are familiar with Who's Who in America (and who is not familiar with it?) will at once recognize in that well-known standard biographical dictionary of notable living Americans the prototype of Who's Who in New England. That publication is, indeed, the model upon which Who's Who in New England has been fashioned, with one distinct difference: Who's Who in America has to do with the notable men and women of all the states in the union—living Americans of national and international prominence—whereas Who's Who in New England deals exclusively with residents of the New England States, or with persons who are closely identified with the interests and activities of those states. It will be seen, therefore, that while the present volume owes its inception to

Who's Who in America, it by no means attempts to supplant or supersede the latter, but aims, rather to serve as a useful supplement and companion.

This will be better appreciated when it is known that 10,065 of the personal sketches in the New England book are not contained in the national volume. Indebtedness is acknowledged for 2,779 sketches borrowed from Who's Who in America.

With Who's Who in America and Who's Who in New England side by side on the reference shelf, any library, private or public, will be enriched with biographical data, many of which are nowhere else in print, and most of which are nowhere else accessible for reference purposes in any form.

October 1, 1915.

ABBREVIATIONS

Principal abbreviations used in this book

A.A. ..... Degree of Associate of Arts.
A.A.A.S ..... American Association for the Advancement of Science.
A.-a.-g ..... Assistant adjutant-general.
A.B.C.F.M ..... American Board of Commissioners for Foreign Missions (Congregational).
A.B. (also **B.A.**) .... Bachelor of Arts.
A.C ..... Analytical chemist.
Acad ..... Academy, Academic.

ATHERTON, Mrs. Mary Alderson Chandler, educator, writer on educational matters; b. nr. Le Raysville, Pa., of English parentage; d. John and Margaret Alderson; grad. State Normal Sch., Mansfield, Pa.; m. 1st, 1881, Willard M. Chandler (died,

1889); m. 2d, 1903, Frederick Atherton, an attorney of Boston. Began teaching in district schs. of Pa. at 16, and later, after completing a normal course, continued teaching in Oil City and Franklin, Pa., subsequently in San Jose and Oakland, Cal.; removed to Boston, 1881; founded the Home School for Shorthand and Typewriting, 1883; the Chandler Normal Shorthand School, 1892, the Chandler Thinking Club, for the encouragement of independent thinking, 1895; started periodical, "The Thinker," 1898. Editor of The Chandler Shorthand Quarterly, 1914, published in the interest of a rational, uniform shorthand. Mem. Free Religious Assn. of America, Mass. Woman Suffrage Assn. Author of the Chandler Practical Shorthand. The Chandler shorthand differs radically from all other systems. It is not a position system, neither is it a light line system. It employs both joined and disjoined vowels. For the most part each character stands for one word and one only, hence its unprecedented legibility. On account of its exactness, uniformity, and interchangeability, any writer can readily and accurately read the shorthand notes of any other Chandler writer, thus meeting the public demand as no other system does or can. It is extensively used in the pub. schools of America and has made its way solely on its merit. Home: 20 Parker St., Lexington, Mass. Office: Chandler Normal Shorthand School, 221 Columbus Av., Boston, Mass.

ATHERTON, Percy Lee, composer; b. Boston, Mass., Sept. 25, 1871; s.
